**FILE**

That is what is approved. So either we have a caller that is a bit over aggressive, or, just as probable, the firefighter was confused. There are always folks that mishear things and others that just make up things. I've had moment on the dialer where folks go off on all kinds of craziness.

Hello, may I speak with

My name is \_\_\_\_\_, I'm not a telemarketer, I'm a volunteer with Jeffco Citizens for Safety here to to tell you about the current state of our emergency services here in Jefferson County. Our 9-1-1 system is paid for by revenue from traditional landline phones. Now 62% of emergency calls are made by cell and cannot be charged. This is a big problem right?

Because families are switching to cell phones and everyone is protected by 9-1-1 it only makes sense that every one chips in. On Tuesday April 7th we will have the opportunity to pass a 1/2 cent sales tax that will insure fairness and that Jefferson County emergency keeps giving our families piece of mind.

Can we count on your support on Tuesday April 7th?

For Supporters:

Now that we have your support would you be willing to volunteer to make phone calls, or canvass to get the word out between now and April 7th?

How about a yard sign? <<if yard sign is requested>> Do you still live at <<address on file>>

If No or Unsure:

The safety of our community is important, please consider supporting the 911 sales 1/2 cent sales tax.
